Man I swear it was love at the first sight  
Well not the first sight, but the first night  
It worked right  
Guaranteed I'm by her side  
Vision blurred just by her sight  
Cause she was feelin me  
I was feelin her  
Like the bees and birds  
Rolled around made out in the trees and dirt  
Well it hurts always better than what she deserves

We did everything together from A to Z  
Enjoy the cali weather while chasin the dream  
And she loved it  
I loved it too  
Sittin back in traffic nothin better to do but tell her

I know something you don't know  
Wouldn't you like to know?  
No I can't stop lovin you, lovin you, lovin lovin you, lovin  
you  
ooh ohhh oh oh-ohhh  
No I can't stop lovin you, lovin you, lovin lovin you, lovin  
you  
Oh ohhh oh oh-ohhh

Then all a sudden something different was happenin'  
There was a gap, something lacking, a loss in the  
magic  
Well maybe I shouldn't have got myself involved with  
this actress  
Cause her life was so fast and so lavish, everything she  
wants she can have  
It  
Backstage passes, all access  
And lately baby them decisions you've been makin are  
so passive

And that's obsession,  
When you have something you love and you can't  
grasp it

Or get past it  
It's like a new drug  
When the camera flashes  
Now give it up for the masses

I know something you don't know  
Wouldn't you like to know?  
No I can't stop lovin you, lovin you, lovin lovin you, lovin  
you  
ooh ohhh oh oh-ohhh  
No I can't stop lovin you, lovin you, lovin lovin you, lovin  
you  
Oh ohhh oh oh-ohhh

Said I wish I coulda met her at a better time  
And I wish I knew better how she feels inside  
X2

Said I wish I coulda met her at a  
Said I wish I coulda met her at a  
Said I wish I coulda met her at a  
Better time  
X2

Lookin back  
There's no hope for me to take it back that it's  
supposed to be  
Sorry bout what I said to you  
Well baby girl what the hell was I supposed to do  
X2
