"People Going Crazy"

Sex is underrated,
People underpaid and
Drugs on the pavement
People going crazy people going crazy
People people people people people going crazy

Ha, entertain me now
Lights, camera action, pay me now
Daisy chain their brains to make em feel the same
Another way to contain the crowd
Try to close my mouth,
But the words, they still come out
Trying to close my eyes from the greed
And disgust that they must provide

Oh no, what's going on, this'll be your favorite song
Radio is catching on, everybody sing along (everybody
sing along)
Nananananananananana.
We're going crazy!
Nananananananananana.
Jump up get crazy!
Nananananananananana.
We're going crazy.
Nananananananananana.
Jump up get crazy!

This hit shit's simplistic
If you think different then zip it...
I stick to logistics
Like chicks twist their lipsticks ah
I stick to the basics
I rock SB's with no laces ah (no laces)
No time to be wasted
Yo Jay turn up the base hits

I send a charge through your braces
Till it melts off your faces
