"Escaping The Fools"

He took me away
He showed me a way
The rivers where running too slow
The wizard said, "This is your name
Eternal Gladiator, my friend"

Higher and higher and higher I fly
Escaping the circle of clowns
With magic wisdom, with magic eyes
I'm eating the stars and the Moons

I'm going home and guess what?
I'm not dead, yes, I'm going home
Freedom is the name of my soul

Faster and faster and faster
I speed, I'm beating the light
With my eyes I find thousands of universes
Inside every single atom
