Baby, will you hold my hand, my head is haunted  
I feel that the worst is to come, oh baby, warm me  
Maybe if you hold me tight, I will be alright  
I feel that my life is running out, oh baby, love me

Gone insane  
I remember how it all went away

And if you should leave me here alone now  
I will open the door to the end  
So I won't be left again

Heal me, will you heal my wounds, I need your love,  
babe  
Even if you don't know me, yet, believe I love you  
Guide me, will you lead me through the hungry forest?  
I know if we pull it through, love will bloom

Gone insane  
I remember how it all went away

And if you should leave me here alone now  
I will open the door to the end  
So I won't be left again

Baby, will you hold my hand, my head is haunted  
I feel that the worst is to come, oh baby, warm me  
Maybe if you hold me tight, I will be alright  
I feel that my life is running out, oh baby, love me

Gone insane  
I remember how it all went away

And if you should leave me here alone now  
I will open the door to the end  
So I won't be left again
