I've been down so long  
Nothing ever changes  
No matter how much I try

Got neighbors in my head  
They're constantly arguing  
About each step I take

My hands move like rattlesnakes  
And my fingers fumble  
Like they've just been invented

I bleed through the faking truth  
I don't understand  
All you fools

I keep drinking wine  
Alone in the dark  
You know the last drink  
Is always the saddest

I have enough pills  
To take me home  
'Cos this neighbor's song  
Is doing it too slow
