I don't know if you can
Touch me baby, just a little caress
I don't know, take me right
Just to feel you Baby over the time
I don't know if you lie
Love me Baby, give me this love a live
I don't know but if you can
Take me Baby all this night take me there

Tell me what to do
I don't want another
Break my heart in two
I just need you lover
Tell me what to do
Every minute and every second with you,
We're gonna feel one in two

I don't know if there's a way
Me and you but when we feel the same
I don't know what's in my mind
But tonight you need me just close your eyes
I don't know if you lie
Love me Baby, give me this love a live
I don't know but if you can
Take me Baby all this night take me there

Tell me what to do
I don't want another
Break my heart in two
I just need you lover
Tell me what to do
Just take our way now
