"So Long You Pretty Things"

Visit "[So Long You Pretty Things](#)" on MotoLyrics.com

If you feel lonely
and the world's against you
take the long way home
past the scary jesus
and you'll find
with your maybe diamonds
and you'll feel lonely
no more

Help me lord help me jesus
cause I'm lonely and tired
Help me lord it ain't easy
cause I'm living with the blind
I got no reason to believe in anything

Help me lord help jesus
cause I'm hurting inside
Help me lord it ain't easy
cause I'm living a lie
and god I'm hoping for a reason to be here

Help me lord help me father
cause I'm losing my mind
Help me lord it's getting harder
cause I'm losing all the time
I got no reason to believe in anymore

Help me lord help me father
cause I wasted all my time
Help me lord it's getting harder
cause the of mine
and god I'm hoping for the reason to be clear

So long you pretty thing
save your little soul
The music that you played so hard
on your radio
All your dreams and diamond rings
and all that rock and roll can bring you
So long, so long
