these words you write, they break me..
these tears you cry, they make me..
forget why, I play this game alone..
forget why, I play this game alone..
And after all is taken..
And after all is breaking..

Dont say-- I didnt have my reasons
to pack up all my feelings..
try to find a.. falling star! a fallin star!!
Dont say I.....
Dont say I.....
Dont say I.....
Dont say I.....

after all these between lines..
uncountless tries and I dont know why..
I'll waste my time and take my time with emptiness..
for your happiness..

and after all is taken
and after all this breaking..dont..

Dont say I..... Didnt have my reasons
to pack up all my feelings
!!falling star!!!

after all these between lines (dont say i)
countless tries and I dont know why (know why)
I'll waste my time and take my time with emptiness.
(falling star)

dont say i.....
dont say i.....(I)
dont say i.....(I)

try to find a falling star!
