It's a cold night but I warm up as you walk by  
And I'm watching you, I always do  
And it's alright, I've dreamt this dream a thousand  
times  
And this time I know what to do, I know what to do

Where do we go?  
I don't want to wake up  
Spinning in slow motion  
As we fall apart

Where do we go?  
I don't want to wake up  
Spinning in slow motion  
As we fall apart

You can throw out the instructions, we don't need them  
anymore  
I know where we are going, if I could just get out the  
door  
You've got your perfect hands, you've got your perfect  
hands  
Over my nervous heart

I could never act this way again  
Could never feel this way again  
Not afraid of falling down

Wait up, wait up, wait up with the sunrise  
I cannot blink while looking in your eyes  
Talk to me so beautifully

Where do we go?  
I don't want to wake up  
Spinning in slow motion  
As we fall apart

Where do we go?  
I don't want to wake up  
Spinning in slow motion  
As we fall apart

You can throw out the instructions, we don't need them  
anymore  
I know where we are going, if I could just get out the  
door  
You've got your perfect hands, you've got your perfect  
hands  
Over my nervous heart

I can't feel, I can't feel  
I can't feel when I breathe you in  
I can't feel, I can't feel  
I can't feel when I breathe you in
