

## Spitalfield "Tampa Bum Blues"

Visit "[Tampa Bum Blues](#)" on [MotoLyrics.com](http://MotoLyrics.com)

You're standin' in line for attention  
That you're never gonna get  
With all of the doubt that you have  
You've never done much with it

All of your friends have been asking  
If you're alive and where you've been  
Or if you forgot all about them  
While sleepin' on and stayin' in

Yeah, don't play around, don't play it down  
If you got something to say, just say it  
If you got something to say, just say it

All of the time that you spent  
On plannin' out how you would quit  
And what you get out will depend on  
Exactly what you're putting in

You're talking in circles  
Now your reasoning is wearing thin  
How can you catch a free ride  
If you never take after it?

Yeah, don't play around, don't play it down  
If you got something to say, just say it  
If you got something to say, just say it

Yeah, don't play around, don't play it down  
If you got something to say, just say it  
If you got something to say, just say it

Yeah, don't play around, don't play it down  
If you got something to say, just say it  
If you got something to say, just say it

Yeah, don't play around, don't play it down  
If you got something to say, just say it  
If you got something to say
