#### Shadowville Speedway Blues

In a taxi watching a sporting house  
Beside a Linwood vacant lot  
Silverdollar moon portspotting  
Constellation like a sailor's knot.  
The sky was black, ink and glitter in the night  
Train whine saxophone out beyond the light.  
I'm in love with a ghost blue turns to grey  
Put a pyramid on my head to take my pain away.

Shadowville, Shadowville Speedway  
Riding slow down a one way street.

Brown Reculse magic drifting around the shed  
Someone has it in for me I must not lose my head  
Moving with the speedo life several with me left behind  
Burned too many bridges defragmented my time.  
Somewhere in time I've seen all this before  
In a magazine or a dream of a distant war.

Shadowville, Shadowville Speedway  
Riding slow down a one way street.

Manifested destiny a manifesto and a part  
All the actors still agree that ever had a heart.  
Hazel knew the karma, she kept it in a bottle  
Black tooth mojo marked index cards  
Bundles over the side of Dillingham Bridge  
Splashing as ripples reflect from the stars.

Shadowville, Shadowville Speedway  
Riding slow down a one way street  
Shadowville, Shadowville Speedway  
Don't look back, don't admit defeat.
