(feat. Josh Abbott)

Hurry up we're running out of time  
I can see the flashing sirens and the headlights  
Grab the lute come on get in the car  
We'll be screaming tires running down the boulevard

Running fast get the cash? god help us all  
Sirens flash punch the gas outrun the law  
Well you can't deny the truth  
I'm just the product of my youth  
I'm going down won't you catch me when I fall

Well this is it this time we've gone to far  
You can't outrun the law in a broke down car  
Get on the ground put your hands above your head  
William hit the pavement, I jumped back in

Running fast get the cash god help us all  
Sirens flash punch the gas outrun the law  
Well you can't deny the truth  
I'm just the product of my youth  
I'm going down won't you catch me when I fall
