Chorus:

Fallin' in love, fallin' in love again  
Fallin' in love again with you  
Fallin' in love, fallin' in love again  
Fallin' in love again, with you  
Sometimes I think about you  
And I remember all the things we went through  
And I realize that I need you  
I'm fallin' so in love with you

Chorus

Oh, it's funny how things change  
Not long ago I thought my love for you would fade  
away

Your love gets sweeter everyday

So in love I want to stay

So, baby

Bridge:

Promise that you'll stay  
Never take your love away  
'Cause I need your love  
You're stuck in my heart  
Don't you know  
And the feelin' is strong  
And I can't let you go

Chorus

Bridge

Chorus

Bridge 2:

It's all that you want and more  
I just wanna close the door  
And share my love  
And share my love  
I just wanna be with you  
Show you that my love is true  
What you don't see  
Believe in me  
Chorus 'til fade
