Groupie Luv

[Intro: Snoop Dogg]

This is a DJ Whoo production

In conjunction with Doggystyle Records and 213

[Verse 1: Warren G]

I need a ride or die groupie that can get dirty in Gucci  
On the floor or the floor or the hoopty while she loving  
me up

I'm usually the instigator

But ain't nothing greater

Than a X-rater with a nickname like vibrator

I need to do a remix to "Area Codes"

I..got..hoes and plenty more

The way it kicks on time is out of control

So when my nigga Snoop Dogg comes and kicks the  
door

[Snoop Dogg]

When I walk up in the door

You best to know it's pimping on the hoe

213 gets the crunk for sure

And they know about us everywhere we go

[Warren G]

And where the groupies at

[Chorus: Nate Dogg & (Snoop Dogg)]

I was just about to call

'Till Snoop Dogg told me that he boned

'Till Warren G told me he rolled

(I told you she's a grooooouppp)

Hoooooeeeeee!!!

Nate Dogg in the house tonight looking for some  
groupie love

Snoop Dogg in the house tonight looking for some  
groupie love

Warren G in the house tonight looking for some  
groupie love

(213 all in your face and we trying to find)

Groupie Love

[Verse 2: Snoop Dogg]

Looking for a chick

That love that West Coast gangster \*\*\*\*

Yeah girl if you think that you're the one

Let's go and have ourselves some fun  
You ain't got a bring nothing at all  
Just enjoy the adventures of the Dogg  
I heard you like my smile  
My rap, my pimp, my style  
Well it's on you what it do  
You got to let Nate hit it too  
'Cus when we come to your town  
Rule is pimps up, draws down  
[Warren G]  
And where the groupies at  
[Chorus]  
[Verse 3: Snoop Dogg]  
My fast scheme on them  
We can tag team on them  
That's what we need to do  
Just me, G and you  
It's cool when I'm seeing you  
Get ready for a nine inch dick, me and the D in you  
I know you don't want to miss this  
Some classic LBC, 213 \*\*\*\*  
We in your city get busy 'till you get dizzy  
Trying to find all our fans  
To load them up in our vans  
[Warren G]  
We hate to end the show  
But there's a lot of groupies at the door  
Another everyone to take a see  
All aboard and launch 213  
And where the groupies at  
[Chorus]
