Take a listen through the window  
Take a lover on the radio  
Ask her is she's got an answer  
Do you know

Time enough to get a good one  
Through they never seem to get done  
I am standing for a reason  
Do you know

Chorus  
'Cause I don't know how  
And I don't know where  
We are we are

And I don't know why  
I don't know if  
We are we are

Seven days and not a return  
Seven lives and not a thing learned  
Take a lover on the highway  
Do you know

'Cause I am sleeping on a time bomb  
And I am waiting for the light to come  
You and I could get away now  
Do you know

Chorus

Take a listen through the window  
Another lover on the radio  
Ask her is she's got an answer  
Do you know

Chorus
