ooh....

1st verse

you came on to me
and i didnt know just how to act but i
knew right then and there
you'd be the man to have my hand and i
felt so good inside
that you made me wanna
break down and cry when you
asked me to be your wife
and i promise that i'll keep you satisfied with

Chorus

everything that i have i'm gonna give it to you yeah
and nothing matters but this wedding ring
i wanna spend my life with you

2nd verse

i wish for you everything
in the world for my baby boo but its
one thing that i ask: just promise me you'll never leave
never get you out my mind
dream about you everynight
everything i have inside
boy you're luck in my life
i'll give u my life, i'll give u my all

Chorus (til end)
