Pale as the sunrise and cold as the moonlight
She suddenly glides into view
Echoing footsteps
Meandering laughter it's you, ooh

Every whisper reveals a dark secret
Her first and last love was untrue
And behind the makeup are the scars of a breakup
You can see it right through
The ghost girl

Don't get too close boy, to the ghost girl
She's already started haunting you

Utter despair has a fatal attraction
When clothed in a shimmering gown
But don't take up where her assassin left off
Or you'll be let down by the ghost girl

Don't get too close boy, to the ghost girl
She's already started haunting you

She spooks me, woh, the ghost girl
Come to me, woh, the ghost girl
In the middle of the night, woh, the ghost girl
She spooks me, woh, woh, woh

Ghost girl
Don't get too close boy, to the ghost girl
She's already started haunting you
Ghost girl
Don't get too close boy, to the ghost girl
She's already started haunting you
Ghost girl (repeat til fade)
