[Jonny Z]

Yes yes ya'll

It's your boy Jonny Z

And I got my homie the South Park Mexican

And we're gonna kick a little Puro Latin Bass

[Verse 1: Jonny Z]

Well it's Jonny Z and South Park we're ready to roll

Sport Versache and a Rollex and our pockets are swole

Check in the pent house the day of the show

Check them player haters to because we good to go

We roll in 99 Impalas with the 20 inch blades

Rolling hydro with my boy before I hit the the stage

See we just in town for just one night

Making freaks shake that ass when I grab the mic

Being born in the barrio is were it all started

Pouring 40's for my homies who are gone and
departed

Now the jente give me porfts when I walk in the place

The freaks give it up when I show my face

You know I got love thats all I can say,

they can't get enough of Puro Latin Bass

[Verse 2: South Park Mexican]

SPM and Jonny Z

On another bomby

My G quick to pmp to pump the party

Will we quit not me

Charlie

Like it my style cause I do'em doggy

Still I get jiggy

Here kitty kitty

The finest girls I met are from a little bitty city

Big booty big isgies

Spending 20's and 50's

I really don't mind cause to me its just pennies

Sippin on henny

Haters can't affend me

Still I have your click hallin who killed Kenny

Hgh power player

Microphone slayer

Smoking red hair
With the H-town layer
Puro Latin Bass
All in your face
Im'a watch the whole world all fall into place

[Verse 3: Jonny Z]
Now we 808 kick drum
Makes the gurlies get dumb
Haters try and front but the ladies wanna get some
Back at the momo
Keep it on the lowlow
With this Latin player that drives'em loco

[South Park Mexican]
Bass in the attick of my caddilac seville
Come around here we can battle rap for real
Got bass shaking walls and rattling the house
Letting boys know who the baddest in the south
Now I bow down
Represent my cow town
Smoking on the pow wow
Bet you feel my style now
Hella pipe players
Dress like Im'a ?
Boy's wanna spray us
Girls shake they ass

[Jonny Z]
Cause you know we got love thats all I can say
They can't get enough of Puro Latin Bass
