Outside the window  
A beautiful sight  
Billions of stars  
Shining so bright  
Planets and entities  
Black holes and galaxies  
Asteroids flying by  
Close to me  
Anyone could become  
A tragedy  
All controls are out  
Meaningless to shout  
Rushing through it all  
Makes you feel kind of small  
Time is running short  
Losing life support  
Lost in space  
"X X D 590  
This is starbase command  
Do you copy, over"  
"X X D 590  
This is starbase command  
Can you tell me your position, over"  
"X X  
Will you please acknowledge, over"  
"This is starbase command,  
Can you please acknowledge, over
