Right now I'm feeling sick
I think I'll be a lunatic
My senses are out of control
I am a vulcan without a soul
Mr Spock's brain
Something has stolen it again
ran away with my very special brain
We have searched all of the Enterprise
negative result, this isn't nice
Where is my brain
Oh, what a pain
I'm going insane
We have to find it within an hour
otherwise it will lose its power
The price of a new one is too high
will I survive or will I die
Where is my brain
Oh, what a pain
I'm going insane
Mr Spock's brain
