I'm lost in a time machine  
All alone with a black, blank screen  
I'm lost in a time machine

I'm lost in a time machine  
The computer doesn't understand what I mean  
I'm lost in a time machine  
In a time far away from now  
I'm swirling around but I don't know how  
It doesn't matter which button I press  
Nothing happens at all  
Through the time I fall and fall  
I'm lost in a time machine  
All alone with a black, blank screen  
I'm lost in a time machine

I'm lost in a time machine  
The computer doesn't understand what I mean  
I'm lost in a time machine

How could I miss the warning light  
If I hadn't I wouldn't be out of sight  
I'm out of water, I'm out of food  
It's getting hard to breathe, this doesn't look good  
I'm losing my senses, I'm losing my mind  
I hope somebody finds me soon here out in the time  
I'm lost in a time machine  
All alone with a black, blank screen  
I'm lost in a time machine

I'm lost in a time machine  
The computer doesn't understand what I mean  
I'm lost in a time machine
