There's no coastline anywhere  
Just me and restless sea  
I'm taken by the current  
That's slowly killing me  
I'm drowning in a fear  
'Got no strength to hang on  
As I see the fading surface  
I'll slowly close my eyes

Bridge:

I'm floating in a void  
I'm afraid it's all in vain, theres no reason  
Why should I go on?

Prechorus:

I thought I would never fall  
I had it all, never needed more  
Still I couldn't save myself  
From this gradual fading  
At times I feel you should save me  
Cleanse me from my sin, let me rest by the spring  
of living water  
Change my life, heal me, without you i would only  
give it up and die

Chorus:

Far away i can see the lighthouse shining  
So far away I feel that I have drifted  
But I know, there's no place on earth where you  
wouldn't find me  
No such darkness where your light wouldn't be  
shining

Surrounded by the waves with chains around my  
feet  
I'm craving for a freedom that would release me  
In the distant sky I see a shade of light  
That light begins to rise but I'll slowly close my  
eyes
