"The Essence"

Visit "[The Essence](#)" on MotoLyrics.com

You're there beside me
Even when I feel alone
Somehow It seems brighter
As you give a reason to go on
The life without you never filled the void in me
I couldn't be the one to make my life complete
Now every single time I wake up from my sleep
Your presence is there to nourish me

It used to be
So different
Many things I still recall
My soul yearning for the freedom
With you you brought it all

The life without you never filled the void in me
I couldn't be the one to make my life complete
Now every single time I wake up from my sleep
Your presence is there to nourish me

Chorus:
I can't live a day without you
I can't breathe the air without you
I can't live my life without you
I'd die without you

You're there beside me
Even when I feel alone
Somehow it seems brighter
As you give a reason to go on
The life without you never filled the void in me
I couldn't be the one to make my life complete
Now every single time I wake up from my sleep
Your presence is there to nourish me

(Chorus)
