I. Flow - True Believer

Sunlight gliding
Children sighing
In their dreams
Never hiding

True believer
You are ever
Forever
The great deceiver
Will never boil your blood
Or swallow you
whole...yeah...

Shocked outrageous
I have slipped in the slime
Touch me - I'm contagious
Seeping into your mind

True believer
You are ever
Forever
The great deceiver
Will never swallow your soul
No never...yeah...

True believer
You are ever
Forever

II. A Constant Flow of Sound

Now we come and go
We get around
A constant flow of sight and sound
A constant flow of sound

Shock on the gate
We're so sorry
Guests are not allowed

We're gone forever
Headlong together
We're gone - we're so far gone
The true believer
Has burst the ocean wide
We're gone - we're so far gone
To where the last of the long lost people are hiding

Lock your doors
Everything's delivered
Turn on the news
All things considered
Looks like we're out of time

We're gone forever
Headlong together
We're gone - we're so far gone
The true believer
Has burst the ocean wide
We're gone - we're so far gone
To where the last of the long lost people are hiding

III. Into The Source

Go forth
Into the source
Go
Evading force
Go forth
