It's everywhere that I go  
It's everything that I see  
And I don't know how to fight it

What was down is now up  
And what was up has gone down  
This scene has lost all its spirit

If you're not going  
Every minute of every day  
You'll end up somewhere behind it

Back in the day things were hard  
But so much simpler in ways  
You didn't know when to quit

Outshined by everyone around  
Feeling lost and never found  
Trying hard to fight the good fight  
Out of the darkness and into the light

Strange things always come  
When your mind is not clear  
And there's no understanding

Thrown right under the bus  
Throwing up all your guts  
To get back to beginnings

Habits carved into stone  
That you do all alone  
When nobody is watching

Trying not to get caught  
Fear is what you have sought  
And it's much too demanding

I saw you sitting with your friends that day  
I tried to keep myself from staring  
I found the courage but I had nothing to say  
My tongue was tied and I was daring

How lucky, the sun came shining

You told me I was out of my mind  
I said you were crazy  
But it was me who was crazy  
Drunk on the wine in your eyes

Our story is written across the sky  
Words to last forever  
And the meaning just gets clearer every day  
I hope you know we share one soul

Never let go

Can you tell me?  
Can you help me? I am feeling down  
Situation overload  
Our ship has run aground

Waiting for the lightning strike  
To come and bring me down  
I talk but you don't hear a sound

It's got me so frustrated  
The words have been debated  
Can you give me any reason at all?

I want to know  
I gotta know I'm on my own

How you doin', my man?  
You got anything to say?  
Tell us everything  
Everything you learned along the way

The crowd they love you today  
Tell us everything  
How you did it?  
How you made your way?

Start over again  
Feel alive come on and take it  
Start over again  
Feel alive come on and make it

Start over again  
Come and take it  
Start over again  
Come on, let's make it, yeah
