[Japan Release]

Well she was clearly nervous
Cause she asked me if she could
Drive
And I knew how did I know
She had drinking
And I always could read between
The lines
Well I was clearly nervous cause there was
Something that I had neglected
It was obvious she could see right
Through me
But we made love so unprotected
Mekrom Bomb gone forever
Mekrom Bomb forever gone
(Got me nervous)
(Dropped it on my head)
Well she was clearly nervous
Something weighed heavy on her mind
But I was cool I knew what was
Coming
And doorars ain't hard to find
