Good morning, my love, I was just dreaming about you
You are all that is beautiful
Everything that I hold dear, you are the better part of
me
Apart from you there's no other and there will never be
another

I never knew it could be so easy to love
Until I put my arms around you, that's when I knew that
it was
Love is so often hard to find, now that you are mine
I'm holding onto you, I'm holding onto you

Good morning, my son, I was just thinking about you
Greet the morning with a smile
Just spread your arms and reach for the sky
Everything is new, today everything is new

I never knew it could be so easy to love
Until I put my arms around you, that's when I knew that
it was
Love is so often hard to find, now that you are mine
I'm holding onto you, I'm holding onto you

(Now you are mine)
I'm holding onto you my love
(There is no other)
And there will never be another

(Now you are mine)
And I have found the meaning of love
(There is no other)
The meaning of love

I never knew it could be so easy to love
Until I put my arms around you, that's when I knew that
it was
Love is so often hard to find, now that you are mine
I'm holding onto you, I'm holding onto you

(Holding onto you)
I'm holding onto you

(Holding onto you)
I'm holding onto you
(Holding onto you)
I'm holding onto you
