"Candy Corn"

Visit "[Candy Corn](#)" on MotoLyrics.com

Bless you, bless our victorious war

I pray for you

Blood and candy mixing on

The floor

I close your eyes

Strings of candy corns

A string of pearls

A candy for each day

Each one breathes memories

In a hollow man, who says

"I hear a voice"

Strings of candy corns

All silhouettes

Walk in front of me

They fear your face

When around their necks

I place these candy beads

Strings of candy corn
