Hidden track]

Ordinarily I don't feel so
buried but I'm thinking again
and I've lost some time.
I disappear and I re-appear
someone pull me
out of the clouds.
who let this happen
who made me think I
had it down
I can imagine You.
These thoughts I carry I
wear around just like an
electric shock just pull
the switch and watch me
twitch you'll always see
me smile
