So focus
And it's a little time that you needed
I'll be a little violin that's playin
Please tell me
I'll be the space that helps your eyes see clearer
I'll tell you right but you just done me wrong
Are you all right now
Chorus
Treat me wrong
Why you wanna treat me wrong

I'm sorry that your leaving but I'm happy that your gone
But i'm so sorry
But what did i say that really upset you
I know you're so sensitive and peculiar
hangin around
But based on all that relaxed conversation
I thought that you'd be
chorus
Your gone
