"A Friend To You"

Visit "[A Friend To You](#)" on MotoLyrics.com

I look around, see what I see
A lot of people never noticing me
Wish I could say, how do you do
I'd like to be a friend to you

How is the wife, how're things at home
Or are you someone who is walking alone
I wanna say how, do you do
I'd like to be a friend to you

If the world could fall in love
What a happy sight to see
Everybody shakin' hands
People tryin' to agree

It would be the turning point
In the brotherhood of man
It's the way it should have been
Since there's a world bega-an

It's just a dream, never the less
It's worth a chance to bring the world happiness
Why don't we say, how do you do
I'd like to be a friend to you

It would be the turnin' point
In the brotherhood of man
It's the way it should have been
Since there's a world bega-an

It's just a dream, never the less
It's worth a chance to bring the world happiness
So why don't we say, how do you do
I'd like to be a friend to you
