Last night I had a crazy dream It took me deep
beneath
the sea Where colors
dance, and starfish too And even a squirrel in a
spacesuit
All my friends come and see What's going on in the
reef
It all seems so real to me Too bad it was just a dream
Colors
dance beneath the waves Such a beautiful start to a
beautiful day
Feeling so good all around Thinking about such a
magical town

I swam so far the other day To try to find this
magical place It's gotta be out
somewhere far Somewhere down where all the fish are
Someday I'll find it
if I keep trying Until then I'll just keep smiling Thinking
about the places I've
been While moving around inside my dreams Colors
dance beneath the waves
Such a beautiful end to a beautiful day
Feeling so good all around Thinking
about such a magical town
