[Bryntse]

I fall  
The golden walls surround me no more  
Though I laugh  
I know this ain't no fun at all  
Into the maze of pain  
My soul is cast, to be raped  
Screams  
Torment my ears, my fate is here  
The dawn no more place  
The place of disgrace  
Eternal dusk, my eyes are none  
Through darkness I stare  
My dreams are here...not  
Ridden by dark lord  
The mare haunts my mind  
Dimension of despair  
The edge of death  
My hands grips - none  
The fight is ended  
As I'm dying alone
