Time to wash away
Time to kill
Feel my passion - feel my pain
I remember the unveiling moment of your dying
The tears of life when I kissed you good-bye
Like kissing a flower that's flowing down
The knife in my hands kissing your veins...
Time to wash away...
I tasted your blood on my lips
I felt your breathe - your last breath of life
Your body was shaking to the ground
Man in black was reaching out his hands
Time to wash away...
Sleeping beside your graveyard
Feeling freedom from your heart
Silence around me, silence around my knife
Blood and life sinking down to you
Time to wash away
