Been turning my blind eye for the longest time  
Still I see where this is headed  
And my mind is going  
(should I risk it)

It's all been said and done before  
Honestly, I'm out of patience  
For anymore of your excuses

Kicking and screaming  
Inside lies a feeling  
One lonely voice  
There's a backdrop of noise  
Am I on my own  
Tonight, I'll let you know

I light the fire for those of us who wept  
For all the heartache that we felt  
This is all we need  
This is all I need

I sing along with each and everyone  
Beneath the sorrow, lies someone  
Who's reaching out for a hand  
That's reaching too

A common tale if truth be told  
Familiar as it seems  
My story lies between

Silent and seamless  
The sound of my weakness  
Is drowned in the noise  
Of a world with no voice  
And I take it all  
Tonight, the night will know

Ooh-ooh

Take flight when the nightlight's out of sight  
Take flight, just go and take the night  
Take flight as we share this drink tonight

Take flight, it's our fight, I fight tonight

Kicking and screaming  
Inside lies a feeling  
One lonely voice  
There's a backdrop of noise  
Are we on our own  
Tonight, we'll let them know  
(We share the sorrow)

I light the fire for those of us who wept  
For all the heartache that we felt  
This is all we need  
This is all I need

I wrote this song for each and everyone  
Beneath the sorrow, lies someone  
Who's reaching out for a hand  
That's reaching to you
