My Baby, my baby
Somewhere out there followin me
You think you got it
But you dont
You think he'll have ya
But he wont

Look chick you better step back
My mind is open
And i no what your hittin
Somebodies gonna fined you out
And then the gonna push you of a cliff
Remember who you fightin wit

My baby, my baby
Somewhere out there followin me
You think you got it
But you dont
You think he'll have ya
But he wont

I'm tired of this mess goin down
And sumpin makes me think that you can't handle it
Now you cant rememba who ya tauntin wit
I got my gang all in the back
Now tell me do you think
You can hanndle that

My baby, my baby
Somewhere out there followin me
You think you got it
But you dont
You think he'll have ya
But he won't
