Drowned into deepness of Abstract life  
Unforeseen daylight at the end corridors of life tunnel  
Suffocating atmosphere of inner cosmos  
Collapsing neurosis  
Detestation overflow  
Nausea to worthless mankind  
Rejection and ignorance to normal life  
Absorbing life energy  
Exhausted morbid dilemma and world of depressivity  
Lonely isolation to outer world  
Eternal cold misanthropy  
Mental disappear  
Exit from life  
Horizons of grey mourning  
Autumn despair falls on shades of twilight  
Awakening into own funeral mist  
Reach the faded afterlife
