Getting caught's made me think it over  
And it told me that you're never coming back here  
again  
We've been doing things the same way for so long  
That it took me aback

But I don't think I'll ever hear that sad song again

Now don't tell me I've lost you, advance cassette, oh  
no  
I just can't believe it  
No, don't say that I've lost you, advance cassette, oh  
no  
I just can't believe it

Advance cassette  
Advance cassette  
Advance cassette

You'll know by the look on their faces when they pass  
you  
You've been dropped off on the Texas highway  
I've been out here now for so long  
That I'm not sure how you wound me so tight

I'm afraid I won't ever hear that sad song again

So don't tell me I've lost you, advance cassette, oh no  
I just can't believe it  
No, don't say that I've lost you, advance cassette, oh  
no  
I just can't, can't, can't, can't, can't, can't believe it
