Remember the weight of the world
It's a sound that we used to buy
On cassette and 45
And now this little girl
She says will we make it at all
800 miles is a drive

Yeah, you got the weight of the world coming
Down like a mother's eye
And all that you can
All that you can give is a cold goodbye
The law enforcement's impressed, you've survived to
this age
Strapped-up soldiers
They'll lock you in a cage without a bye
For a nickel bribe

But aww, no where you are tonight
And how'd we get here?
It's too late to break it off
I need a release
The signal's a cough
But that don't get me off
I summon you to appear my love

Got the weight of the world
I summon you here my love

Remember the weight of the world
It's a sound that we used to buy
And all that you can
All that you can give is a cold goodbye
The law enforcement's impressed, you've survived to
this age
Strapped-up soldiers
They'll lock you in a cage without a bye
For a nickel bribe

But aww, nowhere you are tonight, come
And how'd we get here?
It's too late to break it off
I need a release

The signal's a cough
But that don't get me off
I summon you to here my love

Got the weight of the world
I summon you here my love
The signal's a cough
But that don't get me off
I summon you here my love
