

Spoon "Reservations"

Visit "[Reservations](#)" on MotoLyrics.com

He couldn't answer my reservations
He couldn't answer and I
One little answer a cheap little answer
Would have meant so much I

Some kind of response now
Some cheap little answer would have meant it to me
And she's never been the places she oughta
But that doesn't stop her being around
And she's never been the places that she oughta

She's just a miner's daughter
She's been around but she's never made it and
She's been around but she's never one to give you
reservations
She's so realized yet uncalculated all the time
