Verse 1

Long hair blowin' madly—August wind
Moving freely to the music in her head
Caught a ride with her thumb in the moonlight
Hitched a ride the night, the night she died

Chorus

It's your life
It's your blood
It's your life
It's your blood

Verse 2

She's the girl of my dreams—of my life
Saw her curves as I was driving by
I will take you anywhere that you need
If you're willing—willing, then step inside

Chorus

It's your life
It's your blood
It's your life
It's your blood

-Solo-

Verse 3

Flashing lights down the road—about mile
Serial murder happened on the 105
Body naked—laying on the blacktop
Bound and naked and torn — the night she died

Chorus

It's your life
It's your blood
It's your life
It's your lie... yeah
