Deceived by the hand that feeds
Non-existent, false reality
Spoken lies, lack of truth be told
Inside you die, slave of mind control

Open your eyes
See through the disguise

Forced attrition
You're forced to make a decision
Can you make the right choice
Will you live or will you let go

All that you know, defined by social control
Time passes by, knowledge built on lies
Word of mouth, let it be known
You live by what you have been told

Deceived by the hand that feeds
Non-existent, false reality
Spoken lies, lack of truth be told
Inside you die, slave of mind control

Open your eyes
See through the disguise
You live by what you've been told...
