"Heart Breaker"

When your love is gone and he's never turnin' back
Don't tear down the walls 'cause ya gotta lead your
pack

With Pride
And Strength
Throughout the night

When your love leaves you
And your heart starts breaking
Instead of running in the grass to cry
Just spread your wings and fly

They dating your best friend
Behind our back
You feel real sick
But he's real not

When your love leaves you
And your heart starts breaking
Instead of running in the grass to cry
Just spread your wings and fly

Running home
Cryin' your eyes out
Feeling the pain stab your heart
Oh oh ohhhhhhh oh oh ohhhhhhh

When your love leaves you
And your heart starts breaking
Instead of running in the grass to cry
Just spread your wings and fly

So don't cry
Wipe your eyes
Say good bye
To the one you called love
