The wind blows strong  
Whipping the deck  
Black swan of sea fly on the waves  
Thunders and lightnings  
The dark prophecy  
"Bows to the west!"  
Said a voice in me

Don't ask me to live in the fear of death  
Don't ask me to die on the screw  
Better to be food for eagles somewhere  
Better to die with the sword in my hand

[Chorus:]  
Lord of the wind  
Take me where the sun goes down  
Lord of the wind  
Over there! Over there!  
Lord of the wind, lord of the wind  
Take me fastly  
Oh lord of the wind

[Repeat 2nd verse]

[Repeat chorus]
