Under the sign of Odin's ravens  
Among the flags the wild wind is screaming  
And the forest of steel  
Shines there, shines there

The hissing cloud of arrows is like  
Black deadly hail  
Obscuring the sky  
Whisper of death  
Whisper of death

Behind the shield still we stand  
Waiting to fight, then you can  
Hear the voice of my sword  
Forged by the dwarfs

Follow the sign of Odin's ravens  
The raging horde without cravens  
Restless heart, restless blood

But if I fall on the battlefield  
Merciful daughter of Asgard lord  
Make me fly to the sky  
To the hero hall
