## INTRO

She's the poster girl  
For facists and sadomasochists  
Or anybody looking for an ass to kiss  
She controls your world  
And snatches your ego at the wrist

## VERSE 1

I had a run-in with a beautiful miss  
She had the fattest onion  
And a set of super-full lips  
Never imagined someone cuter than this  
My heart track was pumpin fast,  
chewin my nails to the cuticle tips  
And it's too late, Naw!  
In fact, it's practically three late  
To fathom e-scape  
She had me had at (whistle) Hey!  
And these days, I don't even practice a faith  
But I'm still back on my knees, babe  
And that's where I'll stay for my...

## CHORUS

Black Widow  
Oh, there is no substitute or other honey I dig, no!  
Black Widow  
Ipso facto that nobody is this cold  
Black Widow  
See, it might be the way that she abuses me nightly  
Black Widow  
She's the Ice Queen, it probably isn't true that she likes  
me

## VERSE 2

Oh, the sweet joy of kissing the ruler  
If this isn't cooler than cool  
Then I'm a miserable fool  
Or just a sucker for a lover who's formidable cruelty's

A tool she employs to belittle and use me  
And usually you'll see me strolling in a dog leash and  
collar  
Wherever she leads, I follow  
She never even bothers to listen to the sweet sonatas I  
jot her  
Somehow it just keeps me hot for my...

#### VERSE 3

I send her flowers, she refuses to notice me  
And spend my hours trying to write her beautiful poetry  
I tend to shower gifts and affection in the widow's  
direction  
She only sees me as a food that she hopes to eat  
Totally raw, like when you go to the store and buy sushi  
It's cool beans, I know what I'm for  
And I could never grow to be more  
Cuz in the scope of her thoughts  
I'm supposed to be walked on, as though I'm the floor  
Come on!

#### OUTRO

She kiss so cool  
Sweetness so cruel  
Meanness so kind  
Please miss all mine

She kiss so cool  
Sweetness so cruel  
Meanness so kind  
Please miss all mine
