### VERSE 1

When the night falls  
And all the children's parents turn their lights off  
A fog is building where the afterlife calls home  
Where the white carved stones  
Cover almost every inch of fine lawn grown  
Half the people fast asleep and dreamin' all their nice  
thoughts  
Alley cats are creepin', shriekin' awful night songs  
It almost seems as if the teeny hints of life's gone  
The secret is that anyone believin' this is quite wrong  
Cause that's when the freaks come out  
Seize the town and people scream and shout  
When the peeps six feet deep leave the ground  
To leap around the street to the beats and sounds  
There's nothing that'll keep 'em down  
Or make 'em go back into the tomb and stay  
Cause as long as the music plays then it moves the  
graves  
That's what you call radioactive

### CHORUS

Start tremblin'  
Your heart rate descends and then  
Your skin is leatherin'  
Then you're dead again  
That's when we begin to roam  
And rock out from the catacomb

### VERSE 2

All hell's breakin' loose  
Tell satan to vamoose  
We're celebratin' spooks  
Elevatin' ghouls and the ghosts in white  
Into the high rankin' socialites who control the night  
We're supposed to frighten most just like them  
poltergeists  
Little kiddies close their eyes, older guys are so  
surprised

When they see the folk's arisin' dudes stay stiller  
Statuesque to have your legs like two great pillars  
It's a new wave "Thriller"  
When the dance floor chants for the doomsday chiller  
You might be sick but lou's way iller  
While you're tryin' to write a hit, my group makes killers  
Who's to say bein' dead's no fun

I guess no one, spooks can play too  
But they get no sun when the red glow comes  
The cemetary empties like techno clubs

#### BRIDGE

There's no get away  
There's no get away  
There's no get away  
From the dead awake

#### CHORUS

Start tremblin'  
Your heart rate descends and then  
Your skin is leatherin'  
Then you're dead again  
That's when we begin to roam  
And rock out from the catacomb

Boo!
