Brock... I sit here glued to the screen punching these  
keys  
Watching everything you do on live Internet feeds  
I downloaded high speed all the files that I need  
To make your hard drive crash and to make your face  
bleed  
You can??Â™ t erase me, I??Â™ m going to make you  
taste me  
I??Â™ m like a virus, I??Â™ ll kill you the next time you  
face me  
You??Â™ re jealous, You stole my shot at the brass ring  
Everybody knows I??Â™ m the Next Big Thing  
You??Â™ re all bark and no bite. You stole my spotlight  
I??Â™ m the great white hope, you??Â™ re the great  
white hype  
If you an animal, I??Â™ m going on safari  
I??Â™ m rockin Playstation 2. You can??Â™ t figure out  
Atari  
Look in these eyes Brock, don??Â™ t think that I  
won??Â™ t shoot ya  
I??Â™ ll leave you worse off. Like a nerd with no  
computer  
Show the world that you can??Â™ t even walk in my  
shoe  
You finish is the F5? Well, mine??Â™ s the F-U!
