The Doctor is calling

The Doctor Is Calling

Something's going wrong

Nowhere do I belong

I listen to the voices in the dark room [What Do They Say]

Something's going down

But I can't make a sound

Looking past the bars of my mind

The coat of arms falling

I hear the doctor calling

The family crest is falling

I hear the doctor calling

Always sharing trips

Remove me from your lips

Sight and mind still and never go away [Go Away]

One too many tantrums

Deviated symptoms

Better lock the phantom away [Away]

The coat of arms falling

I hear the doctor calling

The family crest is falling
I hear the doctor calling
I see the chalkline crawling
I hear the doctor calling me away
This place is my home
My mind still runs free
The doctor's prescription
Less for you and more for me
The coat of arms falling
I hear the doctor calling
The family crest is falling
I hear the doctor calling
I see the chalkline crawling
I hear the doctor calling me away
A merciful embalming
I hear the doctor calling me away
Away...
Away...
Away...
