Ha ha ha ha  
This earth is not your place  
The pale skin is on your face  
If you step inside with me  
You will see a king  
He ain't dead  
He ain't DEAD!  
Don't wanna hear your big mouth talk  
In my world (time to leave my mark)  
In my world (in the cold and in the dark)  
In my world (time to leave my mark)  
In my world (in the cold and in the dark)  
My world  
I get high with my own pain  
What's the truth  
The who's insane  
(Hold your lies and accusations don't mine Ja to your  
situations)
